Introduction

Those who know the least obey the best and emerge wonderful. Leo Navod in all his efforts proved himself to become the rich personality whom that he is today, absorbing the finest of Leoism from the most skilled leaders which A2 has ever produced to the Sri Lankan Leo Arena. Marking his entrance to the movement, Leo Kesari Seneviratne PMJF and Leo Kasun Lokugamage were the guiding figures who illuminated his path towards achieving glory over the last 4 years.

From the start he was a forerunner with the fortune to become a Charter Leo Club President. The pride is all his as the Leo Club of Sri Lanka Technological Campus is now a prestigious Leo Club in Sri Lanka producing skillful individuals to the society. With a natural attitude to “never give up”, he himself has proven the importance of attention to detail and the motive to challenge the inexplicable challenges in life itself.

His school days were his best asset towards his leadership intent, being the School Head Prefect in the year 2013/14 nurtured him towards a grasp in social leadership. He has proved his capacity by being a role model to Kegalu Vidyalaya, comprising over 3500 children with many qualities and ambitions. Adding to this list, he has been an advisor to the Science Society showing his diverse academicals skills. A true sporting champion, Leo Navod was adjudged as Champion in the inter-university weightlifting competition in the year 2015 and moreover he was a decorated Ruggerite winning his team the Runner-up title in the Inter-School Sports Meet held in the year 2009. Carrying the weight of many since his school days, Leo Navod is a Volunteer in Red Cross Society Sri Lanka since 2018. His trustworthiness and attention to detail is further proved as he functioned as Treasurer of IEEE Student, Young Professionals and Women in engineering Conference which was held in the year 2019 at University of Wayamba, Sri Lanka.

Education and academic excellence has been of prime focus to Leo Navod, a brilliant character in his school days giving his fare-share to a diversified portfolio of activities.

Leoistic Year 2019/2020

Project Title Nuwara Ahasa Yata

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	Around 500 people
<i>Service Hours</i>	2 Hours
<i>Project Value</i>	\$9.91
<i>Implementation</i>	The aim was to serve chickpeas for those who come to see the Kandy Esala Perahara. In this season people come all around the country to see the perahara. There is a competition between people to reserve their seats. So, they have to come earlier and have to stay a long time until the pageant starts. Most of the people starve since they cannot get up and go to eat or drink anything. Since they need food, Leos thought of giving them some chickpeas.
<i>Contribution</i>	As one of the senior Leos of a university Leo club, Leo Navod discussed the procedure of the upcoming project by contacting all the project members. He recommended places for the project to be conducted. Leo Navod gave tremendous ideas for fundraising and for the project to be successful.

Project Title **Blue Planet**

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	Around 300 people
<i>Service Hours</i>	3 Hours
<i>Project Value</i>	\$4.8
<i>Implementation</i>	<p>Sri Lanka “the pearl of the Indian ocean” where the mightiest of the earth’s creatures call home, yet our island with gorgeous beaches all around it is trashed with all kinds of litter. From plastic cans, plastic bags and all other bio-degradable and non-bio-degradable waste our beaches are piled up with tons and tons of our society’s mistakes. It has been found that these pollutants have a major effect on factors such as wind and ocean currents and coastline geography. The litter that is being delivered into the oceans is toxic to marine life and humans including plankton, fish, and ultimately humans, connecting through the food chain.</p> <p>As leos and the leaders of tomorrow, it is our responsibility and duty to take up the challenge of preventing more damage to our beautiful country and eventually the world. With this ultimate motive, the Leo club of Sri Lanka Technological Campus held the beach cleanup “Blue Planet” project along the coastline of Egodahena beach where all trash was collected and categorized and then handed over to the authorities. This project commenced at 10.30 am with the hope of being able to cover more ground and successfully the leos were able to clean as much as possible and collect the trash that was poisoning the Egodahena beach. Through this project, Leos hope that they can set an example for the people of our country and also for the future generations to come.</p>
<i>Contribution</i>	<p>Leo Navod recommended some of the beaches that should be cleaned. He gave precautions that should be taken when cleaning beaches and the Leos were provided with the required tools to clean the beach. Also, he involved getting the permission from Dehiwala Municipal Council.</p>

Project Title EmWo – Women Empowerment Workshop

<i>Capacity</i>	Project Coordinator
<i>Beneficiaries</i>	12
<i>Service Hours</i>	3 Hours
<i>Project Value</i>	\$10.2
<i>Implementation</i>	<p>The aim of this project was to reach greater heights and to educate the women in Sri Lanka about the power of women and to encourage them. Leos of Leo club of Sri Lanka Technological Campus decided to conduct a workshop on women empowerment, and invite a motivational speaker to inspire everyone who attends the workshop and also to do few fun activities with the crowd. Once the project was planned, a Google registration form was shared online to take a count on the Leos participating for the event. There were about 50 Leos registered, therefore, we planned to hold the workshop for 50 Leos. The committee planned to award the participants with participation certificates and to provide them some snacks. Leos helped by designing a flyer, certificate template and also by creating a logo for the event. Leo advisor Lion Noel Palliyaguru helped us in finding a speaker for the event, Mr. Doglas Siriwardana. Though 50 Leos were registered for the event, only 12 Leos participated. The workshop was conducted by Mr. Doglas Siriwardana. He started the</p>

workshop by delivering an inspirational speech starting from Sri Lanka and relating examples by giving life lessons and inspiring everyone. After delivering the speech, he did a few fun activities with the Leos which was a body relaxation session and to improve the power of concentration. Later he had a friendly discussion with the Leos about the problems they were facing and day-to-day life issues while having tea. Finally, participation awards were distributed to all the Leos who participated in this event and Lion Noel Palliyaguru ended the workshop by adding his remarks. Mr. Douglas Siriwardana appreciated the Leos for conducting a workshop and for inviting him as the guest speaker, he also asked the Leos to invite him for future events and that he'll give his fullest support to all the Leos.

Contribution

He searched for famous guest speakers for this project. After discussing with Lion Noel Palliyaguru, they decided to invite one of the famous lawyers in Sri Lanka.

Project Title #RE

<i>Capacity</i>	Project Coordinator
<i>Beneficiaries</i>	Diverse
<i>Service Hours</i>	70 Hours (Sun, 18th Aug at 1.00 pm- Sat, 31st Aug at 1.00 pm)
<i>Project Value</i>	N/A
<i>Implementation</i>	<p>When we recycle used materials they are converted into new products reducing the need to consume natural resources. When organizing the competition Facebook event, flyers and posts wanted to be created that was a challenge and Leos of the club gave good support in continuing the project. For the success of this project, there should be participants for the competition. It was a big challenge to have participants. The prime motive of this project was to collect reusable materials, make your own creative and upload it to the event as instructed. Even though the event was a challenge, Leos participated in this event with their creative skills and posted them on the event Facebook page. The competitors were rewarded and the project was a success.</p>
<i>Contribution</i>	<p>Leo Navod motivated all the young Leos to participate in this project since it builds creativity as well as it saves the environment. He gave advises to the project chairman regarding the process of the project. He also used his creativity to help to design the posts and flyers.</p>

Project Title “Sinhalaen Python” – Online Course

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	Around 400,000 (A/L students and Undergraduates in Sri Lanka)
<i>Service Hours</i>	4 Hours
<i>Project Value</i>	\$11
<i>Implementation</i>	<p>This project is on producing an educational video for a tutorial series in Sinhala once a week. As the first step python language is selected. At the end of the series, every participant can take an online exam that issues an online certificate as well. This will continue in every section. This idea was generated due to the request of many students who were unable to learn with their busy time schedules and as they couldn't major in areas they needed. Finding the resource person, releasing the videos on time are challenges when executing this project. But due to the involvement of the Leos in subscribing to the video channel, editing, promoting this project can be concluded successfully.</p> <p>Following are the videos uploaded in this video series,</p> <ul style="list-style-type: none"> • Introduction to Python and installation process. • Basic mathematical operations with Python. • About Variables. • Strings in Python. • Relationship between Int and String. • Important facts about float. • Indexing and slicing in Python. • Calling input function and Len function in Python. • How to code a program. • How to use if, else if and else functions in Python. • Exam pass or fail? The python code. • About for loops. • About while loops. • Break Statement in Python. • List in python Part 1,2,3. • Logical Operation and Python. • Python Turtle Graphics Part 1,2,3,4 • About Def in Python.
<i>Contribution</i>	Leo Navod suggested many names of online courses that can be contacted for this online Python course. He discussed the process of this online course

with the project chairman and gave him advice since this Sinhala python course is a project series.

Project Title *Joining Against Cancer in Kids* fund raiser

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	N/A
<i>Service Hours</i>	5 hours
<i>Project Value</i>	\$0.2
<i>Implementation</i>	World-wide many children suffer from cancer. It is expensive to some extent for the treatments done. For countries like ours don't have many facilities and money to treat poor children. Therefore, it would be helpful if people could help them by giving donations and raising funds. Joining Against Cancer in Kids was planned to hold during the month of September as it is childhood cancer awareness month. This is conducted via many fund-raising projects to raise funds to help the poor children who suffer from cancer. Therefore, as the first fundraising program street music and hat collection were organized at Galle face premises. This fund-raising project is a sub-project of the main project which was planned and

Leo Navod Kiriwaththuduwa

Leo of the Year Candidate
Leo Multiple District 306

organized with some Leo clubs of Nepal as a joint project. Some of our Leo club members participated in this event, helping to perform street music.

Contribution

Since this project is an international project with Leo clubs of Nepal, Leo Navod gave directions for this project to be a success. He contacted many personalities to collect new ideas. He got the chance to contact the Leos of Nepal to discuss the process of the project.

Project Title **Hope for a cure**

<i>Capacity</i>	Resource Person
<i>Beneficiaries</i>	About 120 people
<i>Service Hours</i>	4 Hours
<i>Project Value</i>	\$4.3
<i>Implementation</i>	The aim of this project is to make awareness of diabetes and its adverse effects on the general public. This is a free program for everyone. The awareness program was selected with the motive of supporting the general public to be free of diabetes by promoting healthy food for their daily diet.
<i>Contribution</i>	Leo Navod as a resource person of the project, contacted the Diabetes center to arrange a date for this project. He discussed the procedure with the project chairman and with the project secretary. Since this project was held in Bellanvila temple, it was a tough task. So he gave advice to all the leos who participated in that project.

Project Title *Shilpa Yatra*

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	50 children
<i>Service Hours</i>	6 Hours
<i>Project Value</i>	\$20.7
<i>Implementation</i>	<p>The project was organized with the aim of serving the children of age 16 years at the Lunugamwehera division who are facing the G.C.E. ordinary level examination this year. There were around 50 students in the nearby schools who needed guidance to excel in their O/L's. The identified problem in this school community was the absence of teachers in the area to give proper guidance to the students and also the lack of motivation the students had for their studies. Also, we witnessed that the school was unable to provide necessary stationery items to students who couldn't afford it on their own.</p>
<i>Contribution</i>	<p>Leo Navod recommended some transportation modes for the Leos who are participating in this project. He took the task of printing the papers that were to be given to the students on that day.</p>

Project Title **Lantern Fest**

<i>Capacity</i>	Project Member
<i>Beneficiaries</i>	About 126 students
<i>Service Hours</i>	3 Hours
<i>Project Value</i>	\$127.8
<i>Implementation</i>	<p>In a campus, students of various cultures get the chance to meet. But most of the time they don't get a common time for a meet-up. Students should be given the chance to know about unknown cultures and make new fellowships with others. Sri Lanka as a country provides the environment for peace and harmony among different religions, races etc. Therefore, through this project, Leos planned to promote this intention. The event started at about 5.00 pm on the day with the distribution of the lanterns. And the students were instructed about the process of lighting the lanterns and making them float in the sky. The damaged lanterns were returned and new lanterns were given for the damaged ones. The targeted crowd and the number of lanterns did exceed. The event ended at 8.00 pm. For students who came from outside (homes and outside hostels), a shuttle service was arranged to depart at 7.30 pm. All the waste was collected and removed in a proper manner. The event was a success with the help of the Leo club members and others. Everyone enjoyed the evening and the event and they were able to experience the joy of peace among everyone.</p>
<i>Contribution</i>	<p>Leo Navod assisted the whole process of this event guiding the project chairman about getting permission from the relevant authorities and the procedures.</p>

Project Title *Leo Master Chef*

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	About 100
<i>Service Hours</i>	4 hours
<i>Project Value</i>	\$108.53
<i>Implementation</i>	<p>The project Leo Master Chef was a food stall as a fundraiser and a cooking competition. Rather than doing an online competition, holding a competition at the campus premises had more benefits. While the undergraduates gained experience through organizing a project the students who are talented got a chance to show their colors. A cooking competition has not been held at SLTC before so this was a chance to show the innovative ideas of the Leos and also to make prospects aware of the Leo Club activities. Senior Lecturers including lecturers related to the field of food science were in the judge board of the Leo Master Chef Cooking Competition. All the competitors were awarded participation certificates and the winning teams were awarded cash prizes. The winning team of the evening was Team Omelette and the Runners-up were awarded to team Menu Masters. The evening was full of excitement and fun. Many Leos and prospects were present throughout the whole competition to encourage competitors.</p>
<i>Contribution</i>	<p>Leo Navod gave some suggestions and new ideas for this project. He gave his fullest support during the fund-raising events. He discussed the process with the University administration since the project was conducted in the university canteen. He also guided the project organizing committee to make the event a great success.</p>

Project Title **Jeewana Yathra - Ampara**

to finding sponsorships to planning the event with all the necessary items and also the coordination of the work on the day of the event was truly significant.

Project Title **Daham Dayadha**

<i>Capacity</i>	Project Member
<i>Beneficiaries</i>	About 100 children
<i>Service Hours</i>	5 Hours
<i>Project Value</i>	\$1.65
<i>Implementation</i>	<p>The project aimed to serve the Sunday School students in Temples, the target is to serve about 100 students at a time as this workshop will be more successful for a small number of students and they can be easily approached. This was organized to improve their communication skills, performing skills and creativity skills via a workshop, art competition and speaking competition. Three projects were selected to conduct, a workshop along with few fun activities with the students, a speaking competition and an art competition. The workshop was selected to make students familiar with the environment and to get to know the students better. The art competition was selected with the intention of identifying the hidden talents of students and the speaking competition was selected to identify the students who are good at speaking and to improve their thinking patterns.</p>
<i>Contribution</i>	<p>Leo Navod contacted the temple and arranged the date and the venue for the project with the project chairman. He recommended some senior Leos for some ideas to be taken in order to make this project a success.</p>

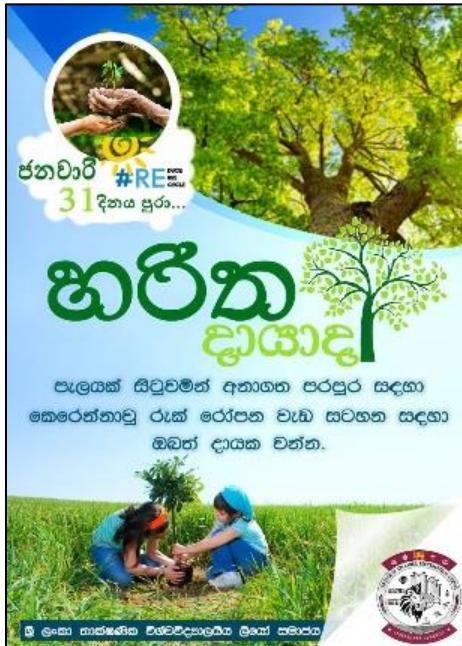

Project Title **Hope**

<i>Capacity</i>	Project Coordinator
<i>Beneficiaries</i>	About 320
<i>Service Hours</i>	3 Hours
<i>Project Value</i>	\$60
<i>Implementation</i>	<p>This project was aimed to serve the children of grade 01 at Pitumpe Primary School, Padukka. There were around 75 students in grade 01 and 450 students in the whole school. Leos selected to do an awareness program on health and nutrition care, fun activity on 'Origami', distribution of stationery items and some posters showing health tips along with a treat for grade 01 students. The awareness program was selected with the motive of supporting the students to be strong physically by knowing what and which health habits are essential. The fun activity on 'Origami' was selected as a motivation for the students as well as it is an attractive way to improve brain activity in kids. The distribution of stationeries was highly beneficial for the students who have economic difficulties and also stationary items were useful for all the students.</p>
<i>Contribution</i>	<p>He devoted his time to collecting the stationaries that were to be awarded to the students on the day of the project. He suggested a few ways of collecting donations for this project by experience.</p>

Project Title *Haritha Dayada*

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	Diverse
<i>Service Hours</i>	10 Hours
<i>Project Value</i>	N/A
<i>Implementation</i>	<p>This project aimed to spread the message of planting in order to provide a better future for future generations.</p> <p>This was an island-wide project where people from all over the world could take part by simply planting a plant. The Committee decided to organize a tree planting day through Facebook since Facebook is a commonly used media platform and therefore, Leos can easily make others aware of the importance of planting trees. Also, since it's the university vacation period almost all the Leos are at home, in different districts across the country. Therefore, they thought that doing a project online would be a great idea as anyone could easily collaborate.</p>
<i>Contribution</i>	<p>He motivated and asked all the Leos of his University Leo club to Participate in this project. He discussed the process of the project with the project members and suggested new ideas to make this online project much more interesting.</p>

<i>Capacity</i>	Project Chairman
<i>Beneficiaries</i>	Diverse
<i>Service Hours</i>	06 Hours
<i>Project Value</i>	\$8
<i>Implementation</i>	<p>Forests are being destroyed and degraded at alarming rates. They are being polluted by humans itself by illegally dumping garbage, this is on the rise and is increasingly becoming a problem because it hinders the objective of keeping the environment clean and can have serious impacts on wildlife and habitat.</p> <p>“Kurulu Kale” is one such sanctuary which is being affected by this problem. It has been reported that people who enter the forest causes pollution by littering with polythene and other non-degradable waste. The Leos of Sri Lanka Technological Campus decided to visit this sanctuary and clean garbage in order to protect lands which provide habitat to many native wildlife, birds, fish and plants.</p> <p>In order to clean up the forest, Leos spent their day picking up all kinds of trash. At the end of the day, we were able to collect heavy bags of garbage. We all worked together hard to clean this sanctuary and the unity of the Leos itself made this project a huge success.</p>
<i>Contribution</i>	Leo Navod organized this project by collecting information from the authorities of “kurulu kale” sanctuary. And lead the team for the project by doing the chairmanship of the project.

<i>Implementation</i>	<p>Everyone has their own unique story and this is the story of kumara.</p> <p>He is a lottery agent who sells lottery tickets for living in the Borella area. Despite his disabilities he travels across the Borella area in his poor wheelchair even in extremely sunny days and rainy days so that he can make some money to feed himself and his parents. He doesn't even have a proper wheel chair when it rains all his lottery tickets get wet and he doesn't even have a protection to cover them up. This is his story and what he does to earn a living.</p> <p>We randomly met him in Maradana and talked with him. He shared his life story with us, about how he sold tickets and his condition. After hearing his story, we, Leos of Sri Lanka technological Campus decided to make him a wheelchair so that he won't face any hardships. And then we got it done from a carpenter in maradana and handed it over to kumara.</p> <p>This simple act of kindness had the power to change his entire life. It's all about being kind honest and most importantly being true because all these things will come back to you in the most unexpected ways.</p>
<i>Contribution</i>	Leo Navod as the project coordinator rendered an immense support in finding the raw materials and the carpenter. He was always with the project chairman guiding and directing her with his ideas to make this a success.

Project Title *Reflection - The jubilant celebration of a road once taken*

<i>Capacity</i>	Project Advisor
<i>Beneficiaries</i>	Around 90
<i>Service Hours</i>	2 Hours
<i>Project Value</i>	\$22.8
<i>Implementation</i>	<p>Leos of SLTC successfully ended their first Leoistic year with lots of projects including service projects, joint projects and also, they gave their participation for other club events, district events and multiple events as well. As newcomers their journey has been a challenging one. They thought of sharing information and experience about what they did and what they are about to do. The idea of publishing a newsletter came up then. The club's key officers discussed how a club newsletter can help in the completion of club goals and decided to start an official newsletter for the Leo club.</p> <p>The work was divided among Leos so that they can write brief yet creative description about them. The name of the newsletter was suggested as 'Reflection', since the content of it includes and reflects leadership, experience and opportunities Leos created in their Leoistic journey so far. The editorial panel did a great work by carefully checking and arranging the articles in the most colorful and appropriate way. Leo Navod Kiriwaththuduwa did a marvelous job by taking the designing part of the newsletter.</p> <p>The newsletter consisted of many photos along with the articles because people like to see their club and fellow members in action. It was also a nice way to encourage absentee members to show up; especially when they can see peers enjoying themselves in club-related activities. Moreover, Leos added their own projects, joint projects and participated events to let the members and other Leos know how active the club is, from gaining new members to successfully holding events.</p> <p>However, at the end, <i>Reflection</i>—The jubilant celebration of a road once taken, was published as the 1st edition of our official newsletter for the Leoistic year 2016/17. Successfully printed hard copies were given to the</p>

guests on the day of publishing. Soft copies of it also uploaded to the club social media page and other fellow Leos were invited to enjoy it.

Contribution

Leo Navod Kiriwaththuduwa did a marvelous job by taking the designing part of the newsletter. His sharp creative skills for the service towards club newsletters was brilliant. Amazingly he fast tracks his design skills, going beyond the club and the district. The role encompassed getting the news articles from the clubs, interviewing a personality per each issue and getting design innovation glued to each new publication.

Project Title **Orientation Workshops**

<i>Capacity</i>	Project Chairman
<i>Beneficiaries</i>	Around 60 Prospects
<i>Service Hours</i>	10 Hours
<i>Project Value</i>	\$28.26
<i>Implementation</i>	<p>“Leadership is about making others better as a result of your presence and making sure that impact lasts in your absence.”</p> <p>On the 7th of September 2017, an orientation program was held for the Leo club prospects who will be the future leaders. Orientation is important because it lays the foundation for the prospect to become an active Leo member. On the day of the workshop, Leo Pemal Yasith started the program by explaining about history of Lionism and Leoism with a wonderful presentation. Next, Leo Navod Kiriwaththuduwa who was the Charter Club President of the club gave a description of what we did and where we are.</p> <p>After that, a word game was done as an ice-breaking event. Prospects were divided into two groups and we gave them the opportunity to participate. At the end of the event, the winning team was given a small present as an encouragement. They enjoyed that event a lot. The Leo Advisor also joined this workshop, mentioned the importance of belonging to this great community.</p> <p>Leo Raseema Sugandi explained the future plans of our club and it created a great opportunity for our prospects to get to know what we are about to do in the future. She also mentioned the importance of these projects and how we can gain experience as well as do a service to the community by completing the projects. The orientation workshop was a great success.</p> <p>Orientation Workshop Project Phases:</p> <p>Phase 1: 22nd July 2017</p> <p>Phase 2: 29th August 2017</p> <p>Phase 3: 7th September 2017</p> <p>Phase 4: 21st February 2018</p>
<i>Contribution</i>	As the Immediate Past Club President, Leo Navod was concerned about the future of the Leo Club and a personality who always works towards the betterment of Leoism. In this event also he handled each and every important process carefully and encouraged the prospects to be a Leo. Leo Navod knew that it is also his responsibility to lay that foundation of making the future leaders. So he took the responsibility of conducting this event. He has always been an inspiring speaker and a motivator. Therefore, as an

enthusiastic speaker, He gave an inspiring presentation about Leoism and made the orientation program a more interesting session. After the orientation, he met the students and gave answers to their questions and had some chats to clarify their doubts.

Project Title Sayuru Sumithuro- Ocean Friends (Beach Cleanup)

<i>Capacity</i>	Project Coordinator
<i>Beneficiaries</i>	Around 200 Leos
<i>Service Hours</i>	4 Hours
<i>Project Value</i>	\$1.65
<i>Implementation</i>	<p>Beaches are home to various creatures. Animals do not know that a shiny candy wrapper is not meant to be eaten. If ingested our trash can cause harm. By keeping this environment trash free we help to protect and preserve marine life. Each individual can better the ocean's ecosystem by playing their part in keeping the beaches clean.</p> <p>Leos of Sri Lanka Technological Campus decided to hold a beach cleanup at Koneshwaram beach, Trincomalee. The project was an idea came up in a board meeting. It was a program that brought together to undertake practical actions to enhance and conserve the natural environment, especially as it relates to a local beach.</p> <p>38 Leos from the Leo club gave their active participation in the project. In order to get the maximum use of the time or to make the work efficient, Leos were divided into small groups and places of the beach were given for them to clean. All the Leos did their best to clean the beach. They cleaned even the polyethylene and plastics covered with water. This is the trash that gets into the oceans and animals can easily mistake that trash for a certain food source. After Leos finished collecting, they disposed it properly.</p>
<i>Contribution</i>	As a nature lover, Leo Navod took initial steps to implement the beach clean-up project. He selected the beach in Trincomalee and gave massive support to the cleaning process. He bought the garbage bags and distributed them among the Leos to the cleanup process. Through this

Leo Navod Kiriwaththuduwa

project, he proved that enjoying the beautiful scenery with friends and keeping up on the resources for the next generation is what being part of a community is all about.

Project Title **Gift of Wisdom – Book Donation Programme**

<i>Capacity</i>	Project Supervisor
<i>Beneficiaries</i>	200 students
<i>Service Hours</i>	5 Hours
<i>Project Value</i>	\$44.30
<i>Implementation</i>	<p>Reading can open up new worlds and enrich children's lives, their social skills and it can provide children with endless hours of fun and entertainment. However, for so many other young children in Sri Lanka, the story is very different indeed. In many schools' books are not readily available and have become a rare commodity. It is this thought which led Leos of Sri Lanka Technological Campus to organize the book donation program. They named it as 'Gift of Wisdom 'since books make great gifts because they have whole worlds inside of them.</p> <p>Leo Raseema Sugandi suggested St/Mary's College, Elpitiya, Galle, which is a Provincial school with around 500 students to deliver the books. The Leos informed the principal of the school about the donation they are about to do, and he sent them a letter of request indicating they need the support. He further confirmed that they have only a limited number of books that they get once a year through private donators and that they have no other way to get reading materials for their library.</p> <p>The project team decided to collect books from Leo members, campus students and the staff of SLTC. In order to make them aware of the project, they designed a nice and colorful notice and displayed it on notice boards. Many students and staff members donated their gently used books. The team collected them and sealed them one by one. Then they were categorized and wrapped.</p> <p>On the 9th of November 2017, a group of SLTC Leos went to the school with the books. They were warmly welcomed by the principal of the school, teachers and the students. The Principal of the school made a welcome speech and appreciated the Leos for donating books and congratulated them for their future. Then the Leo Advisor Lion Noel Palliyaguru made a wonderful speech where he motivated the students to read more, to work more and to achieve more. Immediate Past Club President Leo Navod Kiriwaththuduwa and Leo club President Leo Pemal Yasith also spoke and shared their experiences with the students. Then books were symbolically donated for the students. More than 300 books were donated including novels, English storybooks, educational books, friction etc.</p>

The project was a great success. As the post-project progress, the Leos didn't forget to display another notice appreciating and thanking those who donated books for the project. Their donations have changed the lives of those innocent children.

Contribution

It was a donation program so Leo Navod made attempts to get the sponsorships and encourages the campus students to provide support by giving books. He was the designer of the creative and eye-catching notices and also the social media posts of this project. On the event day, Leo Navod spoke and shared his experiences with the students which inspired them.

Project Title 'Donate Blood Donate Love -Every blood donor is a hero' Blood Donation Programme.

<i>Capacity</i>	Project Cordinator
<i>Beneficiaries</i>	Around 500 people
<i>Service Hours</i>	6 Hours
<i>Project Value</i>	\$214.96
<i>Implementation</i>	<p>Leos are always ready to volunteer, and their hands are always extended and open to help those in need. So, SLTC Leos got together with the National Blood Center, Narahenpita, Sri Lanka and Lions Club of Polgasowita to organize this donation campaign for collections of the blood from donors. First, a project committee was elected. Then the proceedings of the project were discussed and listed. Project secretary communicated with the officers of the National Blood Transfusion Centre, Narahenpita. Lion Ramanayaka of Lions Club of Polgasowita also gave huge support towards this task.</p> <p>One unit of officers was requested for this event from the National Blood Centre. The auditorium and other needed items were requested from our campus administration and permission were granted to use them on that date. Then the publicity of this event was started to get outside people to give their contribution as well. Posters were pasted, banners were displayed and handbills were distributed among the students, academic and non-academic staff of the campus, as well as the people of the Meepe and Padukka areas. Many Leos gave their support when doing this. Invitation emails were sent to our Leos and prospects.</p> <p>Providing refreshments to the donors as well as to the staff of the blood unit also became a huge part of this project. Because a snack and a refreshing drink are an important part of the recovery after donating blood. The committee requested noodles cups for the event from sponsors (Prima Koththu Mee Company) and they accepted it. They also requested from our academic and non-academic staff members and the students to help us in getting those snacks and they kindly gave their support without any hesitation. Those items were collected by the organizing Leos and day prior to the donation, everything was ready for the event.</p> <p>On the day of the event, the team of organizing Leos went there and arranged the place. The team from the blood donation center came and the Leos helped them to arrange beds and for other tasks. First, refreshments were given for those staff members and they were ready to start the event. Then, donors were registered before taken into the hall. Application forms were given for them to fill which includes certain information before donating blood.</p> <p>Leos were handling that part of the event well. Donors who donated blood were given refreshments and a team of Leos took turns and managed that well. District Chairman for Leos Lion Anura Gunathilaka and his gracious Lion Lady Devika Gunathilaka, Lion Ramanayake and several other Lions</p>

from Lions Club of Polgasowita, Leo Advisor Lion Noel Palliyaguru also participated on that day to witness this great service project. The event had donors within the club and campus as well as from outside, and that indicated that the publicity was a success. The visitors and the staff of the unit also praised the Leos for their organizing skills and the contribution. The event took place throughout the day and ended successfully.

Contribution

This was also another massive project which required several organizing skills. Leo Navod as a project coordinator played a key role here as well. He guided the organizing committee to plan and listed the responsibilities. He also contributed to dividing the responsibilities among skilled Leos for successful teamwork. He communicated with the relevant authorities and helped in finding sponsorships for refreshments to the event. He made sure that everything was in accordance with the plan to make it a more effective project. He not only encouraged others to donate blood, but took part as a donor.

Project Title **Heart for Hunger**

<i>Capacity</i>	Project Chairman
<i>Beneficiaries</i>	Around 200
<i>Service Hours</i>	12 Hours
<i>Project Value</i>	\$108.44
<i>Implementation</i>	<p>It's amazing how much we can do if we joined our hands together. There are so many around the world that they are dying every minute from starvation, but by raising awareness, showing the statistics, and giving ideas, we can support to end world hunger. That is why SLTC Leos decided to conduct the project 'Heart for the Hunger'. This is an effort by our Leos to distribute Lunch packets for the people who are suffering from hunger. It was a rainy season and the heavy rainfall and flooding made it more difficult for those poor people. It was also the Service Day of Leo District 306 A2. So they saw this as a great service opportunity to serve those people.</p> <p>First, discussions were made about how they are going to conduct this project. The project team wanted Leos and other people to give their maximum participation for the project. So they decided to make fliers using all three languages, Sinhala, English, and Tamil. They included why and to whom we are doing this., shared them through social media and invited people to distribute lunch packets for the poor people in their areas.</p> <p>Project committee members also divided into small groups, walked searching for the people and children who are suffering. They distributed around 80 well-prepared food packets to people in Meepe, Padukka, Hanwella and Kolonnawa areas. Many Leos and Prospects had distributed food packets in their hometown areas. The project was a success and we got lots of positive feedback from people. The blessings were given by the people and the way they reacted when the Leos deliver the food made them strong to do more and more service projects in the future as well. This project was held continuously for 4 months.</p> <p>'Heart for Hunger' Project Phases:</p> <p>1st Phase: 3rd of December 2017 mainly near Meepe, Padukka, Hanwella and Kolonnawa areas</p> <p>2nd Phase: 21st of January 2018 near Kelaniya Temple area</p> <p>3rd Phase: 26th February 2018 near Padukka and Kolonnawa areas</p> <p>4th Phase: 23rd March 2018 near Padukka area</p>
<i>Contribution</i>	Leo Navod showcased his brilliant designing skills again by designing the trilingual social media posts informing about the event. Not only that, he gave some support financially and guided the leos to serve the food packets

Project Title *Club Installation*

<i>Capacity</i>	Project Chairman
<i>Beneficiaries</i>	99 Leos
<i>Service Hours</i>	4 Hours
<i>Project Value</i>	\$183.63
<i>Implementation</i>	<p>It was a brand-new chapter for the Sri Lanka Technological Campus. Leo District 306A2 Orientation Committee did a marvelous job advising the prospects. As discussed, and planned, preparations were carried out for the Installation Ceremony of Leo Club of SLTC. The ceremony hall was decorated with the contribution of all the members. Documentations were prepared and everything was ready. The installation date was 2nd October 2016. It was started after welcoming the honorable guests. The agenda was followed accurately.</p> <p>The Installation ceremony was a great success and 99 members were inducted making a new chapter of Leo Club history. Chief Guest of the ceremony was District Governor Lion Dr. Athula Hikkaduwa MJFJP and the Guest of honor was Centennial District President Leo Kesari Senevirathne PMJF. The Special Guest was the President of SLTC Mr. Ranjith Rubasinghe. Many Lions from the parent Lions Club, Lions Club of Polgasowita and other Lions Clubs witnessed this memorable occasion.</p>
<i>Contribution</i>	<p>The beginning is always the hardest. Leo Navod had the flexibility and was ready to accept that challenge. He was very active in the orientation and already had some brilliant leadership skills and without doubt he was the best leader for the new journey of Leo Club of SLTC. He cooperated with the senior Leos of Leo District A2, the administration of Sri Lanka Technological Campus as well as his colleges to make this event a memorable one. He not only took the advises from the senior Leos, but also guided fellow Leos to execute them properly. During the decorations for this event, he created a platform to build friendship among the members within the club which today has become an unwavering bond between the Leos of SLTC. His commitment, guidance and leadership skills starting from this day was later rewarded with the club becoming 'The Best New Leo Club of Sri Lanka' along with many other recognitions.</p>

Project Title **Neela Palasa Yata Haritha Viyana**

<i>Capacity</i>	Project Chairman
<i>Beneficiaries</i>	Around 100
<i>Service Hours</i>	4 Hours
<i>Project Value</i>	\$6.38
<i>Implementation</i>	<p>Planting trees is one of the easiest and most sustainable ways to positively affect the environment. 20 plant were donated to the Leo Club of SLTC by Leo Harsha Anthonige. They were presented to the club during the Installation Ceremony.</p> <p>SLTC Leos discussed how, when and where they should be planted. Almost all the Leos helped to make this project a success by contributing their valuable energy and time. This project was beneficial for the whole community since trees are the life givers of all human beings. According to the plan, pits were dug and dates were fixed to plant them. On the suggested date the plants were planted, named and watered. Even after the project they were protected and taken care of by the Leos. They were watered daily and fertilizers were added. The planting of a tree, especially one of the long-living hardwood trees, is a gift which you can make to posterity at almost no cost and with almost no trouble. So, through this project this objective was achieved.</p>
<i>Contribution</i>	<p>As a Nature lover Leo Navod, the president of Leo Club of SLTC took the responsibility and contributed in many ways towards the success of this project. After a discussion with Leo Harsha and other senior Leos of the District, Leo Navod arranged the plants which were handed over during the installation ceremony of the Leo Club. He discussed with the administration of the SLTC to get the permission to carry out the project. He along with the project chairman encouraged the Leos to take part in this project while providing the instructions. He suggested to label the plant with the name and also to make a border around the tree to make them protective. After the trees were planted, under his guidance they were taken care of by the members daily. Leo Navod's leadership inspired by nature emphasizes perception and cooperation.</p>

Orientations for Inactive Leo Clubs

From the beginning of the year Leo Navod and his orientation team had the vision of reactivating the inactive clubs of the district, with that thought they were able to reactivate 8 Leo Clubs in the District. They are,

Leo Club of Kesbewa
Leo Club of HoranaMid City
Leo Club of Uragasmanhandiya
Leo Club of Dehiwala East
Leo Club of Werahera
Leo Club of Taxila
Leo Club of Rattanapitiya
Leo Club of Millaniya

A Leo Club can be inactive due to many reasons each and every club may have different issues therefore Leo Navod organized several Orientations for the above mentioned Leo Clubs. All the orientations were customized and new sessions were introduced to the program some of the sessions are,

Self-Development sessions

Chairman – Fund Raising Committee

Leo District 306 A2 has been organized the “Marians Thala” Live in Concert recently at the National Youth Centre, Maharagama in order to raise funds for the District Project “Jeewana Yathra”. This was one of the key events of the district calendar and has enabled to mark another milestone in the history of A2. It has been conducted as to attain PR and Publicity to the district and it was an immense success.

Leo Navod has undertaken the one of the positions of the project and has served as the Chairman of the Fundraising Committee. He has contributed his utmost support towards driving his team towards raising funds. He led his team towards achieving the objective of raising donations and sponsorships prior to the event and has done an impeccable job towards the success of the event. Further to that he enabled exemplary role model to other Leos for his proven skill of working beyond the expectations. He understood the importance of PR and Publicity for bringing the district in to high standard therefore he has made an impact towards the betterment of the district. He has rendered his level best not only to the position but also for the other responsibilities and he engaged exemplary towards the project success.

Leo Youth Camp 2020, Co-Chairman

Leo Youth Camp is one of the major annual events of Leo District 306A2 where Leos make memories that are to last a lifetime. In normal practice, a youth camps duration is of three days as a residential camp. Here in 2020, under the leadership of Leo Navod Kiriwaththuduwa, Leos of Leo District 306A2 are now preparing themselves to welcome Leos for a memorable experience which is building the second layer of potential leader within the club level as well as the District level. As discussed in the Chapter 7, Strategic thinking and planning Leo youth camp 2020 would become the gateway, aligning the strategies followed by Leo Navod towards shaping the internal choices in identifying the personalities with potential and making sure the criteria for the essential enablers to function.

In other words Leo Youth Camp is a productive platform for young individuals to enrich their intuition with glistening raw inspiration while sharpening their versatile talents to emerge as outstanding young leaders of the Nation. Providing an opportunity to experience the leadership for a productive and charismatic future generation enriched with not only knowledge but also packed with skills and a positive attitude. Leadership Development, sports and adventure activities, enhancing communication and presentation skills of Leos.

Objectives of the Camp

- To strengthen the unity and fellowship amongst Leos of Sri Lanka.
- To strengthen abilities such as making decisions, solving problems and manage their own affairs in a fast-changing world.
- To develop inquiring minds, an eagerness to face challenges and the ability to apply their versatile talents for the betterment of the society.
- To provide the fundamentals for improvement of sportsmanship, leadership and teamwork enhancing interaction and integration among Leos.
- To create a generation strong enough to take over responsibilities without hesitation.

The Camp will consist of

- An outbound training program with adventure activities.
- Sports and recreation activities.
- Leadership and personality development sessions.
- Presentation and communication skill development workshops.
- Public speaking and image building sessions.
- Quiz competitions based on General knowledge, life sciences, history and current affairs.
- Literacy awareness and entertainment programs.

The Camp is scheduled to be held on 28th 29th of February and 1st of March 2020 under the Leadership of Leo Navod.

Workshop for top clubs in the district

In Leo Navod's Strategic focus within his portfolio of duties for the year it was identified as a need to strengthen the top performing clubs of the district to further their capabilities in bringing up the lower tier clubs. Therein this workshop was organized to bring up a platform for Leos of all skill levels to openly discuss what they have been lacking and how well the drivers of efficiency be applied with the help of past and incumbent Leaders. A series of action plans were derived and are being reviewed weekly to monitor the progress involving the line officers of the respective clubs.

Discussion areas

Formation of Guiding Clubs

Measuring the level of support of Council officers

Assigning joint projects and meetings among the top tier clubs

Action Items

Measuring the performance of Council officers with their respective areas

Quality development drive

Identification of promising personalities to drive key district activities

Measuring the administration levels of the clubs

Leoistic Year 2017/2018

Chairman – Pancha Prayamaya - Orientation Treasure Hunt

Best project for betterment of Leoism Leoistic Year 2017/2018

Leo Navod was invited to the council and given the opportunity to conduct a Leadership development program that enables leaders to boost their own performance. Leadership plays an important part in the success of any organization. In the absence of effective leadership, no organization can work efficiently. An organization is created with the purpose of achieving certain objectives through a human group, it becomes essential to control this human group.

The main objective of doing this project was to enhance leadership skills and inter relationships among fellow Leos. Also, to acknowledge new Leo members about the main five tasks in the Leo pledge. With a month of thorough planning, committee decided to conduct a career guidance program, a treasure hunt, few activities to break the ice and boost up the Leos and a session to make understand how Leos should manage their lifestyles while being engaged in Leoism.

The committee consisted of members representing seven clubs of Leo District 306 A2. Chief Guest for the Opening Ceremony was Multiple District President Leo Pramod Wimalatunga.

The first session which was the career guidance program was conducted by PDP Leo Kaneel Maddumage. This was indeed a very valuable session to all those who were present. The session covered aspects career guidance and how a person should start up and proceed in their jobs towards a successful career. Past experiences were shared. It was very enjoyable session and there were so many things to learn from those videos showed by him for the new members.

After Lunch it was the Treasure hunt, which was the most awaited event of the day. All the participants were divided into groups and all were given instructions, rules and procedures on how to proceed with the treasure hunt. All the participants were excited and all of them actively participated competing with each other to be the best within the given time frame. Clues were hidden around SLTC Premises where the teams were asked find and follow each clue carefully and properly in order to move forward until the end. In the end all the teams found the true treasure “Leoism”.

At the end of the day, the Closing ceremony was graced by 2nd Vice District Governor Lion Kumudu Kithsiri as the Chief Guest and Chief Advisor for Leos, Lion Anura Goonatilleke as the Guest of Honor. The Special Guest of the event was Leo Lion Kalindu Dissanayake and all the participants, committee members and the winners were presented with certificates.

Under the guidance and support of the District President, Leo Kalindu Dissanayake, Leo Kesari Seneviratne PMJF and Leo Kasun Lokugamage “Pancha Prayama” concluded successfully having their objectives achieved at the end of the day.

Awareness Campaign aligned with Lions Centennial Service Challenge

For more than 100 years, Lions have served our communities with dedication and contributed to the development and well-being of millions of people around the world. To celebrate their 100th anniversary, Lions Clubs International was asking Lions to help reach their Centennial Service Challenge goal of serving more than 100 million people by June 2018.

As Leos, Leo Navods goal was to give our fullest support to the Lions Clubs International to archive their Centennial Service Challenge goal. As the District Director of Centennial Program for Engaging Youth in Leo District 306 A2, Leo Navod encouraged the Leo Clubs to give their attention towards engaging our Youth through,

- Email Campaigns for Leo Clubs and the Council
- Guiding clubs towards join projects

Strategic Thinking and Planning

Strategy refers to setting up direction and adapting sustainability in any organization. In the perspective of Leoism, Leo Navod has been monumental in building the underlying strategy of the Leo District 306A2 which looks towards grooming leaders to the next 5 years. In a challenging macro-environment of the country, it is thoroughly understood that the norms in Leoism need a face-lift on how it approaches the roots, which is the Leo Clubs.

Leo Navod, with a comprehensive strategy towards orientations derived a set of understandings to suffice the demand of quality required for a Leo Club to form and exist.

Internal choices

- Left Right People skills, how a personality could become an advocate of the movement if groomed in the correct direction
- Building respect and inculcating the need for seniority within club level

Essential enablers

- Identifying skills of Leadership, not essentially the history of the candidate but the potential
- Enabling the top tier of Leo Clubs to become support pillars for the lower tier

Drivers of Efficiency

- The healthy competition, recharging the energy and sustainability
- Buddy club mechanism, collective grooming
- Accuracy in management of club activities, proper communication and good administration

Financing

- Sources of Income generation
- Increasing the throughput of project activity with a cost/return focus
- Innovative monetary management, sharing ideas from the corporate sector

Building a solid foundation ensuring the basics of Leoism are practiced was the prime objective of Leo Navod's strategy for the year. Aligning with the District Theme of 'Prospering Sustainably', it was understood as a need to solidify the use of differences to create a sustainable drive in the District and Leo Clubs towards the next decade.

Path towards a strategic drive in the early days,

Completion of a successful charter presidency in a prestigious University in Sri Lanka and making use of a skill pool of 99 undergraduates whom that were the charter members.

- More than 30 percent of the charter members are now functioning in the Leo District 306A2 over the last 3 years.
- Building and bridging a membership gap in the district in the year 2016
- Leo Navod, an asset to the district as a trainer whom that was trained over the years

Leo Navod was called on to the Leo District Council through a directorship driving a centennial challenge which was 'Engaging Youth'. His capabilities began to pay off over time, and he was able to shift his contributions from operational input to strategic input owing to his diversity.

His thinking was beyond boundaries and the intent to build a sustainable leadership drive with a strategic focus was bloomed when the workshop he organized to uplift the strengths of the top performing clubs. As described in the previous chapter, 'Together We Can' workshop helped groom the outstanding clubs of the District to extend their skills of positivity towards enriching the lower performing clubs.

Strategic focus and Future Roadmap

- Taking up the role of the second in command of the Leo District in the year 2020/2021.
- Aspiration to subsequently become District President, induce changes towards a sustainable drive.
- Build actionable and thought-provoking directives to the Leo landscape.

Ethical standards and personal integrity

The value of a person has nothing to do with status, fortune or occupation it should be measured with his or her personal qualities which derives internally based on the personal values and standards. Hence the person's worth should be measured by the worth of his or her values and it will be demonstrated the ethical standards and the personal integrity of a particular person.

Leo Nawod is **highly** concerned towards different values which were personally followed and proves his ethical standard and personal integrity in various aspects, mainly towards teamwork, service, goals, quality, responsibility and the trust as few core values when it is come to LEOism.

Throughout his Leo journey he has demonstrated his multiple skills as a team worker in club level, district level and multiple levels. As the charter club president he was able to maintain good team work environment inside the club while maintaining a good relationship between all the members of the club. He was able to establish a strong foundation during the charter year through continuing unity among the members and the rapport between the Lions club and the Leo Club. He managed to work with an understanding of different cultures and ideas while respecting other opinions. Therefore he was able to preserve the standard of his club with a quality membership in a friendly manner while keeping the trust among the club members.

He has been rendered his service understanding the importance of the **human relationship and building social trust** among the fellow Leos and Lions. Leo Nawod has executed his work considering the quality of the project and it was completed beyond the expectations.

He has been delivered **excellence towards personal responsibility** in many capacities as a member, as a club president, district council officer and a multiple council officer. As a club president he worked tremendously towards the betterment of the club during the charter year and brought the club to the higher standard and a position in the district as well as multiple. He was able to conduct numerous service projects which has given an outstanding benefit towards the society and it has proven his concern towards the social responsibility as well. His ability to working under pressure has derived from his responsible tasks he carried out. For an instance during one of the significant projects of the district fundraiser he has fulfilled his responsibility exemplary well. Further to that he has worked beyond his responsible task in during different projects.

His impeccable competencies in **hardworking, mutual respect, honesty and fairness** have made him a trusted Leo. He has been a trustworthy person and has built trust among many Leo and Lion Leaders. Therefore it has helped him to improve his ethical standards furthermore.

Leo Navod Kiriwaththuduwa

Leo of the Year Candidate
Leo Multiple District 306

Leo Nawod has always been a **Role Model to the LEOs**. Presently he is serving in the district as Director Membership Retention and serving as a member the Leo Multiple District where he exhibits his **ethical leadership** attribute while being an unbiased person with responsibility and uncompromising integrity. He manages any given task with prioritizing and he avoids bureaucratic decisions as leader in the district. He has been evolved in avoiding different conflicts incurred during projects and when handling critical project chairmanships. He has been worked in his best to maintain equality among the club members, district members and also members in other districts as well. Therefore, he has maintained inspiring ethical standards as a LEO and maintains a well stated personal integrity.

Furthermore, balancing his family, work and LEO is highly demonstrated his ethical behavior and he has succeeded tolerating his priorities in a sustainable manner pertaining to his incredible code of conduct.

Considering all of the above aspects in his life, he has set a role model for other Leos. His high ethical standards with personal values and the personal integrity proven in many capacities with an exemplary code of conducts would be the main reasons to prove why he deserves to be the LEO of the year 2019/2020.

Why Leo Navod deserve the Leo of the Year accolade?

It was 04 years ago, that I, Navod Kiriwattuduwa answered the call of been a self-taught leader that would develop himself to be a personality that is strong to lead more individuals who hasn't answered it's call of Service!

I am grateful for Leoism for all the opportunities that it presented to me to reach out further into different corners of community and serve them to the fullest. I believe in challenging myself at even the most difficult of times is what has helped me reach many goals I have set for myself and those around me. It is of fact that the most-pure form of motivation comes from when you know your capabilities can reach higher multitudes. Therefore, for today, I am proud of all the corners that I have touched with service and leadership.

Kegalu Vidyalaya, Kegalle has enlisted many precious core values in me from my childhood resulting in my cheerful attitude at all situations which I engraved to myself as the **School Head Prefect**. During the leadership at school and even there on been a **Student Advisor and Mentor** for many school batches and students, I was fortunate enough to see the diverse types of existence within the society and was able to see the brighter side of many things in a modest way. Abiding by the principle of giving respect to receive it in return, I always consider it to be the crown in the jewel to make way to a person's heart.

Therefore, joining at the Sri Lankan Technological Campus I have proven myself to be not only an academic but also an individuality who reached by committing my support to **International Symposium on Industrial Systems, INSYS, IEEE Student, Young Professionals, SLTC Battlebots and leading myself to be committed as the Vice President - Student Interactive Society** of SLTC dedicatedly which proves my capability, capacity and caliber to multitask methodically and thrive to reach excellence in all my responsibilities!

The first opportunity I received was as the **Centennial Charter Club President** of the Leo Club of Sri Lanka Technological Campus in the leositic year 2016/17. Proving my integrity, I was adjudged the Most Outstanding **New Leo** while leading the club to be Most Outstanding **New Leo Club** of Sri Lanka making it a strong point of endorsing myself as a person of accountability and trust just in the same year becoming a member. This was also with the challenge of been the president with **99 charter members** who are still leading Leo personalities in the Leo and our community.

With the opening to the Leoism as a Club President, I have not only extended my leadership and commitment along with the utmost dedication to other clubs, district and multiple level constantly. My extensive desire to conduct service and leadership projects led me to conduct many service projects along children, elderly, religious, environmental, youth and covering many service arenas to ensure that Leoism spirit is spread out too many. This year also gave me the opportunity to participate in the International ISAAME Forum as a volunteer and render my support to Lions movement immensely.

During my tenure after club presidency, the club was also awarded many accolades and awards for the projects we carried out and for the Leos whom joined by my introduction. My accomplishments stated within this report explains the depth of it and I make it a point to prove teamwork is the best assistance for myself to climb up the ladder of success. Presently, I function as a Director of the club, still guiding the young generation in the proper pathway to execute the core values of being a Leo and grooming the next generation of leaders.

As much as Leo helped me to mold myself into a complete personal, I believe that it is important that we guide the young and blooming Leos in the pathway to completeness. Thereby I am now proudly **serving as the Orientation Committee Chairman of Leo District 306A2**. I have taken it into an objective to work towards the betterment of the future of the Leo movement in Sri Lanka providing my utmost support in building the quality of it including adding strong new blood into our team and mainly in this year by extending many new Leo clubs and reactivating Leo clubs that were needing our support for many years.

There has been countless awards, certificates and medals that has filled many files and cabinets through Leoism that whenever I see them that brings me all the memories of how it was achieved. The recognitions and achievements as been the **Immediate Past Club President** nor **Best Camper** nor **Best Activity Director** nor **Popular Leo** means that I have left my mark of service and leadership to all around the community by truly committing develop this movement to my fullest!

The Leo Accolade of the year should not be awarded to me because I have carried out many projects that enhanced the standards of the community. I believe I deserve it because I not only understand the importance of initiating projects, I understand the importance of **sustainability of the platform** to create a better world for tomorrow. Furthermore, I understand that it is pivotal that I act as **ambassador of the movement**, carrying out this message for more people to join the community which builds the community, being why, I should be the Leo Accolade of the Year.

Strengths and Weaknesses

Strengths that defines me;

1. Good communication skills

Communication is the key to success and good communication skills have provided me with more than just the opportunity to express myself but also to share views among each other. Communication provided me with the chance to understand, and define the desires of each individual member I was working with, and hence I was able to work that would please them all. It also has helped me get more efficient and effective, which has played a major role in my life.

2. An excellent team player

Not a single project is done by a single person. It is always a convulsive gathering of ideas and opinions, but the skill is to grab the best from the rest. The best teams never had the perfect team mates, but had the most amazing set of people who were able to work with each other. And this defines me.

3. A born leader

Leaders are not created. You cannot force someone to take leadership. And you cannot force me to not take leadership when necessary. Though I am not the type to take leadership even when it is not necessary, I am definitely not the type to sit back if no one is willing to take the lead. That has given me the opportunity to define myself as a true leader, while help everyone achieve exactly what they wanted through the team.

4. Determined

Determine to do the best, determine to achieve goals, determined to meet deadlines, determined to complete everything in the perfect manner. Though over determination could do wrong, I am determined to not let anything affect the good deeds I do, and hence, my determination has brought me this far in my life.

5. A jack of all trades

Being a master of a single trade does not compare with being a jack of them all. I have been able to work with people of many types and many specialization areas. I have also been able to gather up tasks in many fields and perform them quite perfectly. I am known the person whom you should talk to regardless of what sort of help you need because I am the guy who can manage it all!

6. Passionate

My passion is not limited to a single field. I am passionate about what I am doing now, and I put all my heart to complete it in the perfect way. I have learned that passion creates the best artists, and hence I am passionate about not a singular element but about them all! Being passionate about what I am doing now has provided me with the emotional and mental guidance I need to complete the tasks in a vividly colorful manner.

7. Management and organizing skills

Managing and organizing is a life skill that I learnt from the youngest days of my life. I started with organizing my bed, and managing my time to watch the daily bit of cartoon, and it got stuck into me. And who thought that it would become the greatest asset in my life that supported me and gave me strength to carry out multiple tasks at the same time? It is not just about managing time and projects. My strengths also have provided me with the ability to manage money, and all other necessities wherever necessary.

Weaknesses that I should shed away;

1. Too much focus on details

I pay attention to all the simple details. The smallest mistake could make me want to redo it, and the smallest gap between the details could send me off looking for the missing pieces. Despite the fact that I finish on time, and am managed, I am overly considerate about being a hundred percent accurate, even when a ninety percent accuracy is more than enough. Such perfectionism is a knife with two sharp edges, and hence I believe that I should shed away being a complete perfectionist and try to assemble the pieces of any task or project in the best way that is possible.

2. Never say no!

A person should be able to say “no”. But the biggest weakness in mine is that I am unable to say no. I would rather kill myself rather than saying no to something or someone. I have always been the person who does everything and anything. This goes very well with my motto of “say yes to anything, and if you do not know how to do it, say yes, and then learn how to do it”. Sometimes, I have been in trouble because of my inability to reject anything and I am working on the skills to reject the ones that needs to be rejected while accepting the others.

3. Overly excited about projects

Being overly excited is actually a good start, but sometimes it takes you to rough edges. Facing failures have never been hard for me, and I have always been able to gain strength from my failures. But being overly excited can sometimes take me to the wrong track sometimes. I now know that even though excitement is necessary to begin a task, it is not what you really need. This is why I have learnt to put away the excitement and work with passion. Excitement could take you places, but there is beauty in patience.

Acknowledgment

I acknowledge everyone who has helped form the start of my Leoistic career to-date. My gratitude and heartiest appreciation goes to all past and present Club, District and Multiple officials who have always laid myself the pathway to achieve all success and not to forget the assistance rendered in preparation of this report and presentation. Thank you for being there for me as always!

Herein, I state all the above information are true to the best of my knowledge.
